

# BCX-i10J

Windows 11 Pro - 10-inch tablet

The BCX-i10J is a rugged and reliable 10-inch tablet, designed to handle the challenges of demanding work environments. Offering a balance of durability and performance, it supports seamless multitasking and ensures productivity in the field. With a range of advanced connectivity options and long-lasting power, it's the perfect companion for professionals who need a dependable device, no matter where the job takes them.

**Efficient Performance with Windows 11 Pro -** Powered by an Intel Celeron 5105 CPU, the BCX-i10J delivers smooth performance for running business applications on Windows 11 Pro, providing a familiar and efficient user experience.

**Durable Design for Tough Conditions -** Built to withstand harsh environments, the BCX-i10J is IP65 rated, offering protection against dust, water, and drops, making it reliable in any field setting.

**Connectivity at Your Fingertips -** Stay connected wherever you go with dual WiFi, Bluetooth, GPS, and 4G capabilities. With optional NFC and a 2D barcode scanner, this tablet is equipped for fast communication and data capture.

**Versatile and Long-Lasting Power -** The BCX-i10J features a 10-inch 10 point touchscreen and dual cameras (2MP front, 8MP rear) for high-quality photos and videos. Its removable battery ensures long-lasting power throughout the workday.
